OVERVIEW

Partial four-way entry

COMPONENTS & CONFIGURATION

- Seven or more boards on top deck
 - Six boards, if spacing between boards < 3.5"
- Three or more boards on bottom deck
- 4" or 6" top and bottom leading edges
- Three stringers + wood
- Hardwood and/or softwood species lumber
- Standard nails or stiff stock wire fasteners

STANDARD B GRADE PALLET WILL NOT HAVE:

- Space between boards < 4"
- Protruding nails outside the perimeter of the pallet (any protruding nails must be cut off or hammered to the wood)
- Visual contamination due to product spillage, external substances, etc.
- Any debris or material such as stretch wrap, cardboard, stickers, gravel, dirt, etc.
- Any prior heat treated (HT) stamps (All previous stamps shall be fully demarked. If ISPM-15 applies, all HT pallets shall be legibly stamped on both 48" sides of the pallet)
